

Brussels, 12-15 October 2026

# Sustainable days **IT**

*Uniting the community around  
digital resilience, sovereignty  
and Responsible AI*

organised by

in partnership with

Institute for  
Sustainable IT

The Belgian Institute for Sustainable IT invites you to the 1<sup>st</sup> edition of

## the Sustainable IT Days in Brussels

A new event dedicated to tackling the digital challenges shaping tomorrow's organisations!

In partnership with the [Brussels Climate Week](#), this dual event brings together communities which rarely meet, fostering new collaborations, fresh perspectives and opportunities.

With **our Village** strategically located between the *Brussels Climate Week conferences* and the entrance of the *Brussels Climate Week Village*, our exhibitors and sponsors will benefit from **maximum visibility** and a continuous flow of engaged visitors.

**Join us** to gain visibility, credibility and direct access to stakeholders across sectors, from policymakers to entrepreneurs and end-users.

## Event

A unique opportunity to amplify your visibility, through both the Sustainable IT Days and the Brussels Climate Week, a major gathering for climate and sustainability leaders.

### Monday 12 October

- Sustainable IT Days **exhibitor village**
- Sustainable IT Days 30-minute **workshops**
- Brussels Climate Week expo & conferences (focus: **Tech & Innovation**)

### Tuesday 13 October

### Thursday 15 October

- Sustainable IT Days **exhibitor village**
- Sustainable IT Days 30-minute **workshops**
- Brussels Climate Week expo & conferences (focus: **Urban & Nature**)

## Why participate

The Sustainable IT Days Brussels bring together leaders from public institutions, private companies, academia and civil society to explore the key challenges of digital resilience & sovereignty, responsible AI and more key topics.

Exhibitors and sponsors benefit from:

**High-value visibility** within Brussels' digital and sustainability ecosystem combined with a **strong positioning** on the major challenges shaping today's digital era

**Networking opportunities and visibility** during Brussels Climate Week, a major gathering for climate and sustainability actors

**International reach**, building on the established editions in Switzerland and Morocco and the experience gained with [GreenTech Forum Brussels](#) 2024 & 2025

**A targeted audience** of senior IT, sustainability, data and AI leaders from public institutions, major organisations, SMEs, NGOs, academia and tech innovators, connected to Brussels, Europe and the wider international Sustainable IT community

## Exhibitor

A flexible set of opportunities designed to maximise visibility and engagement.

**Exhibition spaces** within the Sustainable IT Village, enabling direct engagement with attendees from both Brussels Climate Week and our own programme

**Maximum value for money** with our competitive pricing, bringing you a dual visibility as exhibitor in both the Sustainable IT Days and the Brussels Climate Week communications and websites

**Sponsorship packages** providing brand visibility, communication exposure and potential exhibition opportunities

**Partnership options** for press, institutional and academic organisations

**Customisable formats** to align with your organisation's objectives and level of involvement

**Reserve your place !** Contact us to get all pricing details and the application form
